

CHURCH ARCHIVES

Annual Report 2010

The central activities for the church archives in 2010 consisted of completing the task of packing the collection into archival boxes for the eventual move from the Mellin-Macnab space. Renovation of the church house is slated to begin in the near future with the upper floors, necessitating temporary storage of archive materials until the new space can be completed.

The Church Archivist was pleased to be invited by Rev. Dick Pease to present a lunch time talk on December 1st to the 60 + group. The topic was on early First Church history.

Respectfully submitted,

David Pultz
Church Archivist
